

DECLARATION OF CONFORMITY

According to directive 1907/2006/EEC

REACH

(Reduction, Evaluation, Authorization Chemical Products)

Antegnate, 26 June 2025

Dear customer,

the REACH Regulation (EC) n. 1907/2006, concerns the Registration, Evaluation and Authorization of chemical substances and is in effect entered into force from 1 June 2007.

OFFICINA MECCANICA GUERRINI VALERIO TORNERIA AUTOMATICA srl does not produce or import chemical substances (as such or components of preparations or articles) and is configured as a user of substances (downstream user), without registration obligation.

With reference to the provisions of REACH, we inform you that we are aware of the obligations deriving from the REACH Regulation and that we are actively engaged in supporting its objectives by promoting communication with our suppliers and customers. To guarantee compliance with the law, we have verified the registration of the substances by our suppliers.

Referring to what is reported on the site <http://echa.europa.eu/it/candidate-list-table>, updated on 25/06/2025 by the European Chemical Agency (ECHA), it is noted that in the processed articles the following substance may be present (e.g. in copper alloys or AVP steels) in quantities greater than 0.1% (weight / weight), among the 250 indicated in the Candidate List of SVHC substances:

Name	Update	Danger	Notes
Lead (Pb)	Inclusion in the SVCH (updated of 27 June 2018)	 Toxic for reproduction Category 1A H360FD – May damage fertility. It can harm the unborn child. H362 May be harmful to breastfed infants.	The inclusion of lead in the SVCH list doesn't imply that the conditions of use have changed

OFFICINA MECCANICA GUERRINI VALERIO TORNERIA AUTOMATICA srl declares that:

- our company works only articles in metallic materials on technical specifications defined by the customer, including the type of material.
- in our mechanical manufacturing process the chemical composition of the material is not changed.
- our products are defined as "ARTICLES" under the REACH regulation in art. 3 (3), therefore they are not subject to the provisions of art. 31 of the aforementioned regulation to the preparation of the safety data sheet.

Available for clarification.

Best regards,
Guerrini Valerio
